

MIOS takes you from cutting edge to leading edge.

MIOS

**Aesculap's
Minimally Invasive
Orthopaedic Solution
for Total Knee
Arthroplasty**

Aesculap's comprehensive approach to less invasive total knee arthroplasty, enables you to achieve a high degree of precision in a reduced visual field – without changing the way you operate.

The perfect union of instrumentation, implant design, navigation technology and surgical technique:

- Works seamlessly with the Columbus® Knee System.
- Virtually eliminates malalignment and other potential complications.
- Provides navigated soft tissue balancing.
- Enables you to adopt any or all of its capabilities at your own pace.

For a brochure or additional information call 1-800-258-1946, ext. 5271 or visit us at www.aesculapusa.com.
