

# We've lowered our beds — not our standards.

## *Introducing the low-height bed that meets everyone's needs.*

Industry professionals & residents agree — the Völker 5380 is the **BEST** low-height bed available. Here's what they're saying:

### **RESIDENTS**

"The bed's fine furniture appearance makes a huge difference to the room's look and feel. My family and I immediately knew that this facility was for us."

### **FACILITY OWNER**

"Völker beds ensure that we achieve success as a health care facility."

### **DIRECTOR OF NURSING**

"Völker beds meet all of the necessary requirements. They provide compliance with HBSW guidelines, a non-restraining design, an MiS pressure-reduction system, a flexible, disappearing assist rail system and accessories to assure my residents they have everything they need."

### **ADMINISTRATOR**

"I need to know that I am making the best possible decision. Völker beds offer me both style and function. They allow my employees to work more efficiently—providing the best care for our residents."

### **MARKETING MANAGER**

"Thanks to Völker, our facility's style and appeal extend beyond the front door and into the residents' rooms. These beautiful beds make promoting our facility a snap!"

### **ENVIRONMENTAL SERVICES**

"The high-quality German engineering, including the motor system's cartridge design, reduces downtime and limits repair time."

### **HOUSEKEEPING**

"Our beds are easier to clean with Völker's removable lying-surface system and ample use of aluminum. They don't rust or corrode either! Völker design saves time and enables complete disinfection."
